Kathmandu, Nepal

SUMMARY

I am experienced in .NET and Laravel development, with a solid understanding of HTML, CSS, and JavaScript. Currently working in web development, I am eager to expand my expertise and transition into software development to build more complex and scalable applications.

EXPERIENCE

• Insoft Research and Development [ ]   *2024*
Software Developer Intern

◦ Worked on the **Support Management System** to streamline work orders, project details, client information, and support records.

◦ Utilized **ASP.NET MVC** to develop a web-based system that manages job forms, filters data, and generates detailed task reports.

◦ Implemented **CRUD operations**, **stored procedures**, and integrated **SQL Server** for backend data management.

◦ Applied **Agile Methodology** throughout the project to ensure iterative development and timely delivery.

◦ Collaborated on creating a user-friendly interface using **HTML, CSS, JavaScript, jQuery**, and **Bootstrap**.

EDUCATION

• Soch College Of IT   *2019 - 2024 (Due to COVID-19, the course duration was extended to 5 years)*
BSc. in Computer Science and Information Technology   Pokhara, Nepal
• Prakash Secondary School   *2017-2019*
Science   Beni, Nepal

PROJECTS

• E-Mart - E-commerce Portal   *2024*
Tools: Laravel, Bootstrap

◦ Developed an e-commerce portal with features like product listings, user authentication, and shopping cart.

◦ Designed a modern, responsive UI using **Bootstrap** to enhance the shopping experience.

◦ Built with **Laravel** to handle backend functionalities such as product management and order processing.

◦ Integrated payment gateway and customer review system for better user interaction.

• Amazon UI Clone   *2024*
Tools: HTML, CSS

◦ Created a responsive user interface clone of the Amazon homepage using **HTML** and **CSS**.

◦ Focused on layout design, navigation bar, product display, and footer components.

◦ Ensured the design was mobile-friendly and aligned with Amazon's structure for learning purposes.

• STANDARD EXAMS - Question Paper Generator System   *2023*
Tools: Laravel, Bootstrap, MySQL

◦ Developed a question paper generator system for automated exam paper creation.

◦ Implemented a dynamic user interface using **Laravel** and **Bootstrap** for easy question management.

◦ Utilized **MySQL** for backend database management to store and retrieve questions.

◦ Integrated features like question categorization, difficulty level selection, and randomization of questions.

SKILLS

• **Languages and Tools:** C, C++, SQL, Git

• **Web Development:** HTML, CSS, JavaScript

• **Databases:** MySQL

ADDITIONAL INFORMATION

Designing: Proficient in using Canva for creative designs and content creation.
MS Office: Skilled in Microsoft Word, Excel, and PowerPoint for documentation and presentations.
Tech Meetups: Active participant in local workshops.
